1. ☒ The amendment filed on _____ under 37 CFR 1.312 has been considered, and has been:
- a) ☐ entered.
 - b) ☐ entered as directed to matters of form not affecting the scope of the invention.
 - c) ☐ disapproved because the amendment was filed after the payment of the issue fee.
Any amendment filed after the date the issue fee is paid must be accompanied by a petition under 37 CFR 1.313(c)(1) and the required fee to withdraw the application from issue.
 - d) ☒ disapproved. See explanation below.
 - e) ☐ entered in part. See explanation below.

It appears that the added claims are adding new matter. As an example, in applicant's specification, it states that the capacitor is embedded within the wiring board, however newly submitted claim 28 states that the dielectric layer is within the printed wiring board. This appears to be the case with other claims as well. Since prosecution is closed on this application, the above claims will not be entered because of the new matter situation addressed above. Consideration of an amendment under 37 CFR 1.312 should not present any substantial amount of additional work on the part of the Office. The amendment set forth requires the Office to look for all of the aspects of the newly added claims to insure that no new matter has been set forth by the addition of these claims and therefore entry of the amendment under 37 CFR 1.312 has been DENIED.
